### **REASONS FOR ALLOWANCE**

1. Claims 1-22 are allowed.
2. The following is an examiner's statement of reasons for allowance: Closest prior art is WRIGHT (US 3,374,078). Prior art does not teach or suggest an upper wall of the chamber having a greater degree of perforation in edge zones than in the central zone. Instead, WRIGHT teaches away from this by providing an embodiment where the center has a greater degree of perforation than the edge zones. As pointed out in the response filed on July 16, 2010, the gaseous support of WRIGHT has a bending means separate from the gaseous support means and would therefore not be combined with the nozzle arrangement of LEHTO.
3. The applicant provides a definition for the term "degree of perforation" in the succeeding parenthesis reading "sum of exit areas of the exit holes in relation to the total area".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to CYNTHIA SZEWCZYK whose telephone number is (571)270-5130. The examiner can normally be reached on Monday through Friday 9 am to 5 pm.
